

**8th International Conference on
Survey Methods in Transport:
Harmonisation and Data
Comparability**

Annecy, France

25-31 May 2008

Chère/cher collègue en méthodes d'enquêtes en transport,

En tant que co-présidents, nous vous souhaitons la bienvenue à la 8ème conférence internationale sur les méthodes d'enquêtes en transport. Nous avons réuni les meilleurs chercheurs et professionnels en méthodes d'enquêtes en transport. Ils représentent les bureaux d'études, instituts de sondage, agences gouvernementales ou régionales tout autant que les enseignants ou chercheurs de 25 pays. Autour des thèmes de l'harmonisation et de la qualité, nous discuterons des dernières avancées en matière d'enquêtes transport pour le présent et pour le futur. Cette conférence continue la tradition de l'association ISCTSC (International Steering Committee for Travel Survey Conferences) qui vise à créer des opportunités pour favoriser les échanges, collaborations et constitutions de réseau sur les questions de méthodes d'enquêtes en transport. Le programme détaillé de la conférence commence en page 7. Une présentation globale de la semaine, incluant les manifestations sociales est fournie en page 11.

Vous avez également la possibilité d'assister, sans coût additionnel, à la conférence finale de l'action Européenne COST 355. Le programme détaillé de l'action COST «changements de comportements dans une perspective de système de transport durable» figure en page 10.

Grâce au comité organisateur local, cette conférence poursuit la tradition qui consiste à nous réunir dans un lieu magnifique et unique – la ville historique d'Annecy au cœur de la Savoie. Cette région nous offre de multiples opportunités de visites, comme le Mont Blanc, toit de l'Europe, qui est à moins de 50 km d'Annecy. Les savoyards anticipent le temps à venir en regardant le sommet du Mont Blanc et la forme des nuages qui l'entourent. Si le Mont Blanc met son chapeau, la pluie s'annonce. Le chapeau est une couronne de nuage entourant le sommet. Si le Mont Blanc «fume la pipe», un vent fort se prépare. La fumée de la pipe correspond à la neige du sommet qui est soufflée par le puissant vent d'altitude. Ainsi, durant votre séjour, tentez de prévoir le temps que nous aurons en puisant dans votre interprétation personnelle. Prenez le temps de découvrir les merveilles qui nous entourent. Pour faciliter cette découverte, nous avons sollicité des guides locaux qui seront à votre disposition au début de la conférence pour présenter les multiples opportunités de promenades et de visites autour des Balcons du Lac d'Annecy.

Nous souhaitons également remercier les sponsors pour leurs soutiens précieux à cette conférence. Leurs contributions financières nous ont permis de subventionner des collègues provenant de nombreux pays afin de rendre cette conférence aussi internationale que possible. La liste des sponsors figure en page 12.

Sincèrement,

Conference Co-Chairs

Dr. Martin Lee-Gosselin, Université Laval, Québec, Canada

Dr. Johanna Zmud, NuStats, Austin, Texas, United States

Local Organizing Committee Co-Chairs

Dr. Patrick Bonnel, Laboratoire d'Economie des Transports, France

Dr. Jean-Loup Madre, INRETS, France

Dear Transport Survey Methods Colleagues,

From your co-chairs, welcome to the 8th International Conference on Transport Survey Methods. We have with us leading survey researchers and transport professionals from over 25 countries representing industry, government policy makers, as well as academic scholars and researchers. Around our theme of Harmonization and Data Quality, we will discuss the latest advances in current and prospective transport survey issues. This Conference continues the tradition of the International Steering Committee for Travel Survey Conferences (ISCTSC) to create an opportunity for networking, collaboration, and sharing of knowledge. The detailed conference program begins on page 7. An overview of the week, including special social events is on page 11.

You also have the opportunity to attend, at no additional cost, the final meeting of the European COST Action 355. The detailed program for COST Action 355: "Changing Behavior Towards a More Sustainable Transportation System" is found on page 10.

Thanks to our local organizing committee, this conference continues our tradition of bringing us together in a beautiful and unique venue - the historic town of Annecy and the Savoie region. We will have so much to visit, for example the Mont-Blanc, rooftop of Europe, is located about 30 miles from Annecy. Locals will forecast the weather simply by looking at its summit and the shape of the surrounding clouds. If the Mont-Blanc "put his hat on", a storm is coming. The "hat" is the formation of clouds crowning the mountaintop. If the Mont-Blanc "is smoking its pipe", strong winds are coming. The smoke of the pipe is actually the snow on the summit being blown right and left by the high-altitude wind. So while you spend some time in area, make sure you forecast our daily weather in a personally interpretative way. And, please take the time to explore this and other unique attractions. To facilitate your exploration, we have provided for local guides who will be on-hand at the beginning of the conference to explain the excellent opportunities for walking and biking near "Les Balcons."

Finally, we gratefully thank our sponsors for their generous support of the conference. Their financial contributions have enabled us to offer subsidized travel to colleagues from certain countries and thus, to keep this conference series as internationally inclusive as possible. The list of sponsors is highlighted on page 12.

Sincerely,

Conference Co-Chairs

Dr. Martin Lee-Gosselin, Université Laval, Québec, Canada

Dr. Johanna Zmud, NuStats, Austin, Texas, United States

Local Organizing Committee Co-Chairs

Dr. Patrick Bonnel, Laboratoire d'Economie des Transports, France

Dr. Jean-Loup Madre, INRETS, France

WORKSHOPS SERIES A

The detailed program by day begins on page 7.

Workshop A1. Surveys for Behavioural Experiments

Workshop Chair: Peter Jones, University College London, United Kingdom

Resource Paper Author: Werner Brög, Socialdata, Germany and Ian Ker, CATALYST, Australia, *Myths, (Mis)perceptions and Reality in Measuring Voluntary Behaviour Change*

Discussant: Karl Sieber, National Institute for Occupational Safety and Health, United States

Contributed Papers:

- > *Specific Experimental Trials Versus Large-scale Mobility Surveys Insets to Investigate Transport-related Behavioural Issues: The Case of the Primary Utility of Travel* by Papon, Armoogum and Diana
- > *Moving Towards Sustainability? The Consequences of Residential Relocation for Mobility and the Built Environment – Methodological Aspects of our Experimental Intervention Study* by Brunner and Haefeli

Workshop A2. Non-response Challenges in GPS-Based Surveys

Workshop Chair: Heather Contrino, Federal Highway Administration, United States

Resource Paper Author: Stacey Bricka, NuStats, United States, *Non-Response Challenges in GPS-based Surveys*

Discussant: Stephen Greaves, University of Sydney, Australia

Contributed Papers:

- > *A study of non-response in the GPS sub-sample of the French National Travel Survey 2007-08* by Marchal, Roux, Yuan, Hubert, Armoogum, Madre and Lee-Gosselin
- > *Synthesis of and Statistics for Recent GPS-enhanced Travel Surveys* by Wolf and Lee

Workshop A3. Electronic Instrument Design: User Interfaces

Workshop Chair: Elaine Murakami, Federal Highway Administration, United States

Resource Paper Author: Eiji Hato, Kyoto University, Japan and Harry Timmermans, Eindhoven University of Technology, The Netherlands, *Electronic Instrument Design and User Interfaces for Activity Based Modeling*

Discussant: Sharon O'Connor, Resource Systems Group, Vermont, United States

Contributed Papers:

- > *Design of a Computer-Assisted Instrument for Measuring Mental Representations Underlying Activity-Travel Decisions* by Horeni, Arentze, Dellaert and Timmermans
- > *Experimental Results from the Test on the New Stated Preferences Valuation Method, the Continuous Attribute-Based Stated Choice, in the Web-based Surveys* by Lapietra and Pronello
- > *Search Based Internet Surveys: Airline Stated Choice* by Rose, Collins and Hess
- > *Comparison of Phone and Web-based Surveys for Collecting Household Background Information* by Potoglou and Kanaroglou

Workshop A4. Capturing Travel Behaviour Data during Exceptional Events

Workshop Chair: Chester Wilmot, Louisiana State University, United States

Resource Paper Author: Earl J. Baker, Florida States University, United States, *Capturing Travel Behavior during Exceptional Events*

Discussant: Françoise Potier, INRETS (French National Institute for Transport and Safety Research)

Contributed paper:

- > *Capturing Activity-Travel Sequences for Infrequent Events: A Sampling and Data Collection Approach* by Arentze, Borgers and Timmermans

Workshop A5. Surveys on Urban Freight Transport

Workshop Chair: Arnim Meyburg, Cornell University, United States

Resource Paper Author: Danièle Patier and Jean-Louis Routhier, Transport Economics Laboratory (LET), France, *How to Improve the Capture of Urban Goods Movement Data?*

Discussant: Mike Browne, Westminster University, United Kingdom

Contributed papers:

- > *Combination of Quantitative and Qualitative Methods for the Research of Freight Transport* by Arndt
- > *Comparing GPS and Non-GPS Survey Methods for Collecting Urban Goods and Service Movements* by McCabe, Roorda and Kwan

Workshop A6. Moving from Cross-Sectional to Continuous Surveying

Workshop Chair: Dirk Zumkeller, Institute for Transport Studies, Karlsruhe, Germany

Resource Paper Author: Liz Ampt, Sinclair Knight Merz, Steer Davies Gleave, Australia, Juan de Dios Ortuzar, Catholic University, Chile and Tony Richardson, TUTI, Australia, *On Large Scale On-Going Mobility Surveys: The State of Practice*

Discussant: Tim Raimond, Transport & Population Data Centre, Australia

Contributed papers:

- > *Improving Continuous Surveys: Analysis of Attrition and Reported Immobility in the Madrid-Barcelona Corridor Panel Survey* by Ruiz, Timmermans and Polak
- > *Sample Size Requirements for Multi-Day Travel Surveys: Some Findings* by Stopher, Kockelman, Greaves and Clifford
- > *Regional Panels against the Background of the German Mobility Panel – An Integrated Approach* by Zumkeller, Chlond and Kagerbauer

Workshop A7. Best Practices in Data Fusion

Workshop Chair: John Polak, Imperial College London, United Kingdom

Resource Paper Author: Caroline Bayart & Patrick Bonnel, Transport Economics Laboratory (LET), France and Catherine Morency, Montreal Polytechnic University, Canada, *Survey Mode Integration and Data Fusion: Methods and Challenges*

Discussant: Eric Cornelis, University of Namur, Belgium

Contributed papers:

- > *Comparison Between Enriched Travel Data and the Original Survey Data by Means of a Model based Approach* by Nakamya, Moons and Wets
- > *Disaggregate Comparisons of Travel Reported by Two American Surveys, the NHTS and the ATUS* by Yennamani and Srinivasan
- > *Adding Value to Your Data: Analysis of Travel Expenses Based on Trip Diary and Enriched Odometer Reading Data* by Kuhnimhof, Ottmann and Zumkeller

Workshop A8. Understanding Relationships among Transportation Infrastructure, Physical Activity and Health

Workshop Chair: Kelly Clifton, University of Maryland, United States

Resource Paper Author: Sean Doherty, Wilfrid Laurier University, Canada, *Emerging Methods and Technologies for Tracking Physical Activity in the Built Environment*

Discussant: Chandra Bhat, University of Texas at Austin, United States

Contributed papers:

- > *Understanding the Impacts of the Travel Behaviour and Activity Patterns of Children on their Physical Activity and Health* by Mackett
- > *Measuring Walking. Towards Internationally Standardised Monitoring Methods of Walking and Public Space* by Sauter and Wedderburn

WORKSHOPS SERIES B

Workshop B1. Data for Public Transit Planning, Marketing and Model Development

Workshop Chair: Orlando Strambi, Escola Politecnica da Universidade de Sao Paulo, Brazil

Resource Paper Author: Gerd Sammer, University of Natural Resources and Applied Life Sciences, Austria, *Data for Public Transit Planning, Marketing and Model Development*

Discussant: Linda Cherrington, Texas Transportation Institute, United States

Contributed papers:

- > *The Ultimate Survey for Transit Planning: Complete Information with Smart Card Data and GIS* by Chapleau, Trépanier and Chu
- > *Data Collection Approaches for Public Transport Marketing: Some Examples* by van der Waerden, Timmermans and Béréños

Workshop B2. Vehicle-Based Surveys

Workshop Chair: Klaas van Zyl, Stewart Scott International, South Africa

Resource Paper Author: Jean-Loup Madre, INRETS (French National Institute for Transport and Safety Research), France and Dominica Kalinowska, DIW, Germany, *Vehicle-Based Surveys: toward more Accurate and Reliable Data Collection Methods*

Discussant: Robert Leore, Transport Canada, Canada

Contributed papers:

- > *Automatic Number Plate Recognition for the Observance of Travel Behaviour* by Friedrich, Jehlicka and Schlaich
- > *A Pilot of Using Automatic Number Plate Recognition for OD-Survey of Vehicles* by Jarvi

Workshop B3. Evolving Behaviour in the Context of Interest in Environmental Sustainability

Workshop Chair: Mark Bradley, Consultant, United States

Resource Paper Author: Peter Bonsall, University of Leeds, United Kingdom, *What Is So Special about Surveys Designed to Investigate the Sustainability of Travel Behaviour?*

Discussant: Randi Hjorthol, Institute of Transport Economics, Norway

Contributed papers:

- > *Analysing Changing Personal Travel Behaviour over Time: Methodological Lessons from the Application of Retrospective Surveys in Cape Town* by Behrens and Del Mistro,
- > *Level of Knowledge and Awareness about Choice Alternatives – A Missing Link of Stated Response Surveys? A Hypothesis* by Sammer, Gruber, Hoessinger, and Roeschel
- > *Simulating Emergent Behavior and Evolution of Activity-Travel Patterns: Data Collection Challenges* by Janssens, Bellemans, Moons, and Wets
- > *Design of Stated Adaptation Experiments: Discussion of Some Issues and Experiences* by van Bladel, Bellemans, Janssens, Wets, Nijland, Arentze and Timmermans

Workshop B4. The Collection and Processing of Survey Data using Mobile Technologies

Workshop Chair: Jean Wolf, GeoStats, United States

Resource Paper Author: Peter Stopher, University of Sydney, Australia, *Collecting and Processing Data from Mobile Technologies*

Discussant: Barbara Nobel, Statistics Roads, UK

Contributed papers:

- > *Deriving and validating trip destinations and modes for multi-day GPS-based travel surveys: a large-scale application in the Netherlands* by Bohte and Maat
- > *Identifying Trips and Activities and their Characteristics from GPS Raw Data without further Information* by Schüssler and Axhausen
- > *Deriving transport data with cellphones: methodological lessons from South Africa* by Krygsman and de Jong

Workshop B5. Data Visualization Techniques

Workshop Chair: Michael Manore, Consultant, United States

Resource Paper Author: Catherine Lawson, University of New York, Albany, United States, *Visualize This: Opportunities and Challenges for the Travel Survey Community*

Discussant: Stephan Krygsman, Department of Logistics, Stellenbosch University, South Africa

Contributed papers:

- > *Simple and Interactive Spatial Mobility Analysis Tool for Data Visualization* by Chapleau, Morency and Bourgeois
- > *Data Visualization in Travel and Physical Activity Studies* by Lee, Wolf, Oliveira and Kaiser

Workshop B6. The Acquisition of Long Distance Freight Data

Workshop Chair: Kara Kockelman, University of Texas at Austin, United States

Resource Paper Author: Alan McKinnon, Heriott Watt University, Scotland and Jacques Leonardi, INRETS, France, *The Collection of Long Distance Road Freight Data in Europe*

Discussant: Christophe Rizet, INRETS, France

Contributed papers:

- > *The Acquisition of Long Distance Freight Data* by Binnenbruck
- > *The Progressive elaboration of a multinational harmonised database for freight transit through Alps & Pyrenees* by Houée and Spiegel

Workshop B7. Surveying "Hard to Reach" Groups

Workshop Chair: Roger Behrens, University of Cape Town, South Africa

Resource Paper Author: Benoit Riandey and Martine Quaglia, INED-SFS, France, *Surveying Hard to Reach Groups*

Discussant: Nancy McGuckin, Consultant, United States

Contributed papers:

- > *A Reexamination of Methods in the U.S. National Household Travel Surveys* by Contrino, McGuckin, Nakamoto and Santos
- > *Prioritising Street Improvements for Respondents with Disabilities: Qualitative and Quantitative Research* by Cowham, Webb, Dye and Crowther

Workshop B8. Surveys of Tourists and Transients in Urban Areas

Workshop Chair: Alan Pisarski, Consultant, United States

Resource Paper Author: Christophe Terrier, INSEE, France, *Tourist Flows and Inflows: On Measuring Instruments and the Geomathematics of Flows*, presented by Thomas Le Jeannic, SESP, France

Discussants: Antonio Massieu, World Tourism Organization, Spain and Carlos Arce, NuStats, United States

Contributed papers:

- > *Alternative Ways of Measuring Activities and Movement Patterns of Transients in Urban Areas: International Experiences* by Borgers, Joh, Kemperman, Kurose, Saarloos, Zhang, Zhu and Timmermans
- > *Estimating Foreign Visitors Flows from Motorways Toll Management System* by Houée and Barbier

DETAILED PROGRAMME

Tuesday, 27 May

9h00-11h00: Related Event (*all are welcome*)
Mid-Year Meeting Travel Survey Methods Committee (ABJ40)
of the Transportation Research Board

Meeting Chair: Kara Kockelman, University of Texas at Austin, United States

All are welcome, as the committee discusses details of a few top-tier research needs statements, strategies on enhancements to an on-line Travel Survey Manual, and discusses the outcome of TRB's March 2008 Data Section retreat. Subcommittees may break out for more focused discussion.

11h00-12h00: Briefing with Workshop Chairs (both series)

12h30-14h00: Lunch

14h00-17h00: Opening Session

Welcome: Patrick Bonnel, Laboratoire d'Economie des Transports, France

Plenary Presentations

- > *Reconfiguring Access: e-Research Issues for Transport Users and Researchers*
Bill Dutton, Director of the Oxford Internet Institute, University of Oxford, UK
Introduction: Johanna Zmud, NuStats, United States
- > *Harmonisation and Comparability of European Union Road Freight Statistics*
Simo Pasi, Eurostat G-5 - Transport Statistics, Luxembourg
Introduction: Jean-Loup Madre, INRETS, France
- > *The Travel Survey Tool-Kit: Where to From Here?*
Peter Stopher, Professor of Transport Planning, The Institute of Transport and Logistics Studies,
The University of Sydney, Australia
Introduction: Martin-Lee Gosselin, Université Laval, Québec, Canada
- > **Overview of Parallel Workshops Series A:** Martin-Lee Gosselin, Université Laval, Québec, Canada

17h30-19h30: Parallel Workshops Series A

20h00-21h30: Dinner

DETAILED PROGRAMME

Wednesday, 28 May

9h00-13h00: Parallel Workshops Series A

13h00-14h30: Lunch

14h30-16h30: Poster Session

Session Chair: Kay Axhausen, ETH-Hönggerberg, Zurich, Switzerland

- > *Estimating the Robustness of Questionnaire Results: Lessons from a Mixed-Mode Survey of Expectations for Tele-working and Business Travel* by Bonsall and Shires
- > *An Experimental Investigation of Factors Affecting Engagement with Complex Prices in the Transport Sector* by Bonsall and Wickham
- > *Income Data Collection in Developing Countries. Some Evidence from Household Travel Surveys in Sub-Saharan African Cities* by Diaz Olvera, Plat, and Pochet
- > *Use of GPS to Automatically Track Activity Re-scheduling Decisions* by Clark and Doherty
- > *Improving the Commute Mode Survey Through the Design of Mode Choice Items and Geographical Location Data* by Gould
- > *A Study on the Efficiency of Probe Person Survey using the Web Diary and the GPS Phone* by Hato
- > *How to Measure Stated Preferences that Refer to Delinquent Travel Behaviours such as Speeding – A Contingent Situational Approach* by Hössinger and Unbehau
- > *Building a Weekly Time Use Survey from a One Day OD Survey* by Jara-Díaz, Munizaga, Olguín and Rivera
- > *An Open-Source Toolkit for Analysis of GPS Data* by Marchal
- > *Eliciting Social Network Data* by Molin, Arentze and Timmermans
- > *Modelling and Prospects of the Audience Measurement for Outdoor Advertising based on Data Collection using GPS Devices* by Pasquier, Hofmann, Mende, May, Hecker and Körner
- > *Standardisation of surveys on Conventional Travel Behaviour and Virtual Activities* by Vogt and Schiffner
- > *Studying A Mobile and Hard-To-Reach Population: Survey of Long-Haul US Truck Driver Safety and Health* by Sieber, Kanwal, Robinson, Birdsey, Hitchcock, Chen, Pratt and Beaupre
- > *Surveying Behavioural Changes due to the Reconstruction of the Main Station in Linz (Austria) – A Methodological Experiment* by Stark and Klementschtz
- > *Fusion of Smart Card Data and Household Travel Survey Data for the Enhancement of Transit Riders' Behavior Characterization* by Trépanier, Morency, Chapleau and Blanchette
- > *Data Collection Approaches for Public Transport Marketing: Some Examples* by van der Waerden, Timmermans and Béréños

17h00-19h00: Parallel Workshops Series A

19h30-23h00: Dinner Cruise: Lake Annecy

DETAILED PROGRAMME

Thursday, 29 May

9h00-11h00: Group Reports for Workshops Series A

Moderator: Jimmy Armoogun, INRETS, France

Overview of Parallel Workshops Series B: Johanna Zmud, NuStats, United States

11h00-13h00: Parallel Workshops Series B

13h00-14h30: Lunch

15h00-24h00: Alpine Hike, followed by "Savoie" Dinner and Song

Friday, 30 May

9h00-13h00: Parallel Workshops Series B

13h00-14h30: Lunch

15h00-17h00: Parallel Workshops Series B

17h30-19h00: Tour of Old Annecy

19h45-23h30: Dinner at Imperial Palace, Annecy

Saturday, 31 May

7h00-8h30: Breakfast Debrief with Workshop Chairs

9h00-11h00: Group Reports for Workshop Series B

Moderator: Patrick Bonnel, Laboratoire d'Economie des Transports, France

11h00-11h30: Final Plenary Session and Au Revoir

11h30-13h00: ISCTSC Executive Meeting (invitation)

13h00-14h30: Lunch

COST ACTION 355

Monday, 26 May

09h00-10h00: COST 355 Opening Session

- 09h00 – C. Rizet: Welcome
- 09h10 – D. Zumkeller: *Changing Behavior Towards a More Sustainable Transport System*
- 09h30 – J.L. Madre: *ASIF Approach and Fuel Price Elasticities*

10h00-12h30: National Transport Surveys (WG3)

- 10h00 – J. Armoogum and K. Axhausen: *Synthesis of the COST 355 – WG3*
- 10h20 – C. Weis: *Web Surveys*
- 10h40 – P. Marchal: *Use of GPS in Travel Surveys*
- 11h00 - Break
- 11h20 – T. Kuhnimof: *Synthesis of Panel and Continuous Surveys*
- 11h40 – J. Zmud: *View from across the Atlantic*
- 12h00 – Discussion: *New European Programs / New Cost Action/ National Research*

12h30-14h00 Lunch

14h-16h20: Freight & Energy (WG1)

- 14h00 – J. Léonardi: *The Vehicle and Fleet Approach*
- 14h20 – B. Lenz: *Firm-Oriented Approach*
- 14h40 – M. Browne: *Supply Chain Approach*
- 15h00 – O. Kveiborg and J.L. Routhier: *Modelling Approach*
- 15h20 – V. Spassov: *Express Deliveries and Aerial Freight*
- 15h40 – D. Patier: *Last Miles*
- 16h00 – C. Rizet: *Synthesis of COST 355 – WG1*

16h30-17h30: Management Committee

20h00-21h30: Dinner

Tuesday 27 May

9h00-12h00: Automobile

- 09h00 – B. Chlond: *Role of the Car and Changes in Car Ownership on an Individual Level*
- 09h30 – J. Malasek: *The Car and Mobility in Urban Areas - Problems & Solutions*
- 10h00 – L. Christensen: *Land Use, Car Ownership and Travel Behavior*
- 10h30 – J. Dargay: *Policy Measures to Influence Behavioral Change*
- 11h00 – A. Berri: *Car Ownership and Use Inequalities*
- 11h30 – P. Vythoukcas: *WG2 Data Analysis*

12h00-12h30: Closing Session

- 12h00 – All WG Chairpersons: *Acknowledgements and Au Revoir*
- 12h15 – J. Armoogum and B. Chlond: *Need for Data Harmonisation*

WEEK AT-A-GLANCE

Legend:

Blue = ISCTSC

Green = COST ACTION 355
